**A BUILDING  
DESIGNED BY  
STUDENTS.  
FOR STUDENTS.**

## **SPECIFIC**

You have to know what it is that we want to accomplish. My goal for the next year is to re-center the Memorial Union to be a hub for students and their organizations.

## **MEASURABLE**

I want to see more student groups and organizations utilize the space that is here for them and to use it to its fullest, allowing the upmost potential possible.

## **ATTAINABLE**

I strongly believe this is something that can be achieved and done well. For a university our size, there may be hiccups, but there's always worth in trying something once. Having student voice and student present is key.

## **RELEVANT**

This is the 150th year anniversary for the University, what better way to honor the ideas and values of this building than bringing students back to it.

## **TIME-BOUND**

In doing this, I want more student participation to come about in years to come, this is a trend that has started under the current Presidency and I hope continues.

---

These are just some of the goals that are in the works for the Memorial Union under my administration- but more importantly, I want to have your student voice and input to things happening with the Memorial Union and on the Advisory Board.
